

D Y S S E U S™

Planning and Program Management System

SITE INSPECTION TOOL

The **Odysseus™ | SIT** offers organizations with an easy-to-use software application to thoroughly document damages across all community sectors and lifelines. Report the damages of vital infrastructure, housing stock, or other community assets.

Features of the Odysseus | SIT

MOBILE FIRST	Built from the ground up as a Mobile-First system. Optimized for smart phones and notepads, with or without an Internet connection.
TRANSPARENCY & ACCOUNTABILITY	Personalized dashboard reports allows for transparency and helps guide the execution and management of grant funding allocations.
ANALYTICS & REPORTING	Once the SIT data is in the GMT, the GMT reports and views of your grant portfolio include the Site Inspection data.
COMPATABILITY & INTEGRATION	The program can be integrated with existing tools and software including your organization's financial management system.
OTHER GRANT TOOLS	Allows for the tracking of site conditions for projects to include FEMA, Hazard Mitigation, FHWA, HUD CDBG, ARPA, etc.
COMPLIANCE & NOTIFICATION	Automated notifications and simplified workflows ensure compliance with federal regulatory requirements & program guidance.
FLEXIBILITY & ADAPTABILITY	Standard yet flexible design allows you to modify workflows to adhere to your internal procedures, individual programs, or specific processes.
